Code/Configuration Review

SUMMARY

I have over 6 years of experience in application penetration testing and red teaming. Skilled in identifying and remedying critical vulnerabilities, I've managed multiple national and international projects and hold a Bachelor's degree in Computer Science. Recognized in cybersecurity competitions such as BlackHatMEA and Cyber Hackathon, and acknowledged by reputable organizations including the United Nations, I am an OSCP-certified professional. Committed to continuous learning, with strong technical and soft skills, I am ready to make impactful contributions to cybersecurity.

WORK EXPERIENCE

ISM Consultant

SecurEyes - Riyadh

August 2024 - Present

- As an ISM Consultant, I conduct comprehensive penetration testing on internal and external network infrastructures, web/mobile applications, and perform source code security reviews.

Senior Security Engineer

Ebryx - Lahore

December 2021 - July 2024

- As a senior security engineer, I specialize in penetration testing, source code reviews, and red teaming. With over 80 successfully managed projects for several Fortune 500 companies. I also lead a team and write/reviewed detailed reports.

Red Team Member

Synack

March 2021 - Present

- I am working on several projects as a Synack Red Team Member.

Penetration Tester

Security Wall - Lahore

March 2018 - May 2021

- I worked as a penetration tester for 3 years and have worked with many tech companies to help them resolve their flaws.
- I have successfully participated in and reported vulnerabilities in over 50+ companies' web, mobile and network projects.
